Application built with HTML, CSS and Vanilla JavaScript that loads data from a weather API and enables viewing of weather information from different cities.

EXPERIENCE

SOFTWARE DEVELOPER

ONEPOINT AUSTRALIA PTY LTD | NOV 2021 - DIC 2022

- Wrote and tested code for apps for gym center with 300K+ active members. Used TypeScript, Laravel, PhpStorm, and Figma to reformulate features for users and admin staff.
- Reviewed code, troubleshooting and debugging. Refactored code for 4 mobile apps, 1 web app, 6 databases and servers. This ensured the legacy code on the project was up-to-date.
- Engaged in full project life cycles under the SCRUM framework, from sprint planning and daily SCRUMs to reviews and retrospectives. Maintained alignment with cross-functional teams, consistently delivering ready-to-go code in each sprint.

GLOBAL COMMUNITY SPECIALIST

SULAKE SPAIN SL | DEC 2013 - JUL 2017

- Analyzed players' motivations and behavior with the use of refined research techniques. Overhauled development of products by introducing user-centered reports. This boosted time spent online and in-game purchases.
- Interacted with users through in-game and inquiries platform. Refocused standards for daily interaction and localization of global in-game content. By revamping the brand's approach to users, client satisfaction was enhanced.
- Management of brand's social media profile and content on Facebook, Twitter, and YouTube. Implemented strategy for the creation of content. Standardized presence on social media and stimulated community growth.

RESEARCHER

CARLOS CHAGAS FOUNDATION | DEC 2012 - MAY 2014

- Assembled implementation of research tools in a project with over 400 subjects. Designed survey, structured in-depth interviews, supervised secondary data collection, and analyzed data. This produced a research report on the impacts of postgraduation programs on human rights law implemented in Brazilian universities.
