EDUCATION

CERTIFICATE IN FULL-STACK DEVELOPMENT
CareerFoundry

MS SOCIAL SCIENCES RESEARCH METHODOLOGY: INNOVATION AND APPLICATIONS
Complutense University of Madrid

BS SOCIAL SCIENCES MAJOR IN ANTHROPOLOGY
University of Brasilia

LAST PROJECTS

WEBDEVMEETUP
AWS I GOOGLE CALENDAR API I REACT I OAUTH2 I NODEJS I JAVASCRIPT I HTML I CSS

Serverless, progressive web application (PWA) built with React using a test-driven development technique. It fetches meetup events from an API and can be used offline.

WEATHER APP
JAVASCRIPT | HTML | CSS

Application built with HTML, CSS and Vanilla JavaScript that loads data from a weather API and enables viewing of weather information from different cities They are able to sign up, update personal information and manage a list with their favorite movies.

EXPERIENCE

SOFTWARE DEVELOPER
ONEPOINT AUSTRALIA PTY LTD | NOV 2021 - JUL 2022

- Wrote and tested code for specific features using various programming languages and technologies, such as JavaScript, TypeScript, PHP. React, Laravel, AWS Lambda, MySQL and Figma.
- Participated in code reviews, troubleshooting and debugging, building solutions for technical challenges. Maintained and refactored technical and legacy code.
- Participated in all phases of project lifecycles within SCRUM framework: sprint plannings, daily SCRUMs, Sprint Reviews, Sprint Retrospectives, Sprints.
- Collaborated with cross-functional team to design, develop and implement solutions.

GLOBAL COMMUNITY SPECIALIST
SULAKE SPAIN SL | DEC 2013 - JUL 2017

- Analyzed players' motivations and behavior with the use of refined research techniques. Overhauled development of products by introducing user-centered reports. This boosted time spent online and in-game purchases.
- Interacted with users through in-game and inquiries platform. Refocused standards for daily interaction and localization of global in-game content. By revamping the brand's approach to users, client satisfaction was enhanced.
- Management of brand's social media profile and content on Facebook, Twitter, and YouTube. Implemented strategy for the creation of content. Standardized presence on social media and stimulated community growth.

RESEARCHER
CARLOS CHAGAS FOUNDATION | DEC 2012 - MAY 2014

- Assembled implementation of research tools in a project with over 400 subjects. Designed survey, structured in-depth interviews, supervised secondary data collection, and analyzed data. This produced a research report on the impacts of postgraduation programs on human rights law implemented in Brazilian universities.
